

Reading Comprehension – At the Supermarket

Anna goes to the supermarket every Saturday morning. She usually writes a shopping list before leaving home. Today, she needs to buy bread, milk, eggs, fruit, and some cleaning products. She walks to the store because it is close to her apartment. First, she picks up a basket and starts with the bakery section. She chooses a loaf of wholemeal bread. Then, she goes to the dairy section and buys two bottles of milk and a box of eggs. Next, she picks apples, bananas, and some oranges. Before leaving, she gets dish soap and sponges. She pays with her credit card and carries her shopping in a reusable bag. Anna enjoys shopping alone because it helps her relax and think.
